

**MATHS TEACHER
CIRCLES** *Local*

Do you enjoy doing and being challenged by maths?

Are you after strategies and recommended resources to help students become better problem solvers?

Do you want dedicated time to focus and reflect on your teaching practice?

Are you keen to build meaningful connections and join a like-minded community?

Then Maths Teacher Circles are for you!

Maths Teacher Circles are professional learning communities that bring people together to actively do and discuss maths problems on a regular basis.

Each practical and interactive session will be 1.5 hours, during which time we will dive into thought-provoking and accessible maths problems and discuss their implications for classroom practice.

2021 dates are: 4/3/21, 17/6/21, 9/9/21 and 2/12/21. \$10 fee covers refreshments. Registration form will be developed for each meeting. [Please click here for the March meeting.](#)
